

## Provincial Violence Prevention Curriculum - Now Complete!

The Provincial Violence Prevention eLearning Curriculum (PVPC) has been updated.

The PVPC consists of a 3.5-hour eLearning course for all workers in the healthcare sector and facilitator-led training, based on roles and risks.

### KEY UPDATES:

- Healthcare scenarios relevant for today.
- Customized content and interactive learning activities with a contemporary design.
- Integrated cultural safety and humility, trauma informed practice, and equity, diversity, and inclusion principles.
- The refreshed PVPC was updated based on recommendations from more than 1,400 workers, partners and violence prevention experts, as detailed in the *What We Learned* report.
