

Provincial Violence Prevention Curriculum for Physicians – Now Complete!

The Provincial Violence Prevention Curriculum (PVPC) for Physicians is a 1.5-hour eLearning course. It is based on four main responsibilities in preventing and protecting against violence in the workplace - the PVPC Framework:

1. Recognize Risks and Behaviours
2. Assess and Plan
3. Respond to the Risk
4. Report and Communicate Post-Incident

KEY UPDATES:

- Healthcare scenarios relevant for today that reflect realistic situations physicians, residents, and medical staff may encounter.
- Integrated cultural safety and humility, equity, diversity, and inclusion, and trauma-informed practice principles.
- Customized, engaging content in an interactive learning platform with a contemporary design.
- Resources, policies, and additional supports for violence prevention and response efforts.
- Physicians, residents, and medical staff can access the training on LearningHub. Medical staff affiliated with Interior Health (IH) can now access the course on LearningHub and can connect with the IH Physician Engagement team directly for help to get access. Please email mylearning@interiorhealth.ca.

This is an accredited, self-assessment program as defined by the Maintenance of Certification Program of the Royal College of Physicians and Surgeons of Canada, and approved by the Division of Continuing Professional Development, UBC Faculty of Medicine.

Funding for this initiative is provided by the Ministry of Health.
