

# Refreshed PVPC eLearning Course Journey

## Care Aide

Meet Miguel (he/him), a Care Aide who provides direct care in a long-term care facility. As Miguel makes his way through the course, he has the ability to choose the scenarios that are relevant to his job and workplace. Since Miguel uses behavioural care plans, he will receive related information.

### SCENARIOS AND ADDITIONAL CONTENT

In the refreshed Provincial Violence Prevention Curriculum (PVPC), all participants learn the same core skills, while having the opportunity to choose to practice those skills in scenarios that most closely apply to their role and workplace. Some participants also receive additional content. This course is designed for people in all healthcare workplaces, including hospitals and facilities, community and client homes, and long-term care.

Facility

Uncontrolled Environment

Client's Home

Long-term Care + Other Sites
